

MARIO ÁLVAREZ MARTÍNEZ

Data Science Student | Sports Data Analyst

+34 656867231 malvmar5@hotmail.com Benidorm (based in Valencia) github.com/Marioam200

PROFESSIONAL PROFILE

3rd-year Data Science student at the Universitat Politècnica de Valencia, combining strong technical skills in data analysis with hands-on experience in professional cycling as a sports masseur, sporting director and track cyclist. I bring a unique bridge between data-driven thinking and real-world sports performance, with a proven ability to work in high-pressure, international environments. Highly motivated, fast-learning and team-oriented.

WORK EXPERIENCE

Sports Assistant — Club Ciclista Alfaz del Pi, Alicante

January 2021 – Present

- Database management: organisation and ongoing update of athlete records.
- Team coordination: leadership of a multidisciplinary technical staff.
- Direct athlete support and administrative documentation.
- Continuous professional development to maintain up-to-date technical standards.

Sports Masseur — Spanish National Cycling Team

National competitions & training camps

- Pre- and post-race muscle preparation and recovery for elite cyclists.
- Applied sports massage and physiotherapy techniques in competitive settings.
- Close collaboration with medical staff and coaching team.

Masseur / Technical Staff — Victoria Sport's (Philippine Cycling Team)

International competition

- Recovery and physical support in an international, multicultural environment.
- Adapted quickly to different protocols and high-performance team dynamics.

Cycling Sports Director (Level II) — Youth Development (Ages 14–18)

3 years of experience

- Designed and managed training programmes for young competitive cyclists.
- Individual follow-up, motivation and group management.
- Competition calendar planning and race-day coordination.

EDUCATION

BSc Data Science

Universitat Politècnica de Valencia | 2023 – 2028 (Year 3)

- Statistical analysis, machine learning, data visualisation.
- Relational and NoSQL database management.

TECHNICAL SKILLS

Python

LANGUAGES

Spanish — Native

Valencian — Advanced

English — B1 — Intermediate

KEY COMPETENCIES

- Data analysis & reporting
- Teamwork & collaboration
- Time management
- Attention to detail
- Adaptability
- Effective communication
- Critical thinking
- Commitment & work ethic

SPORT

- Federated track cyclist (active competitor)
- High-performance mindset

Master's Degree — Digitalisation, Innovation & Technology in Sport

Specialisation in sports technology and innovation ecosystems

Certified Sports Massage Therapist (Quiromasajista)

Cycling Sports Director — Level II Licence

Royal Spanish Cycling Federation (RFEC)

PROJECTS & GITHUB

github.com/Marioam200

- Personal and collaborative projects in data analysis, visualisation and machine learning.
- Git/GitHub used as standard for version control and teamwork.
- Academic knowledge applied to real-world problems in sports analytics.

▸ Team discipline & resilience
